

MINISTRY OF AGRICULTURE AND FARMERS WELFARE
PRADHAN MANTRI FASAL BIMA YOJANA (PMFBY)
SPECIAL OPERATIONAL CIRCULAR - POST-HARVEST RISK COVERAGE 2025

Section 12: Scope and Eligibility for Post-Harvest Losses

Clause 12.1: Perils Covered

Post-harvest risk coverage is available throughout the country against specified localized perils, namely cyclonic rains, unseasonal showers, and post-harvest inundation.

Clause 12.2: Mandatory Harvesting Condition

Coverage is strictly available only for those crops that are kept in 'cut and spread' or bundled condition in the agricultural field itself for drying after harvesting. Produce stored in farmer courtyards, godowns, threshing floors, or under tarpaulins is excluded from post-harvest coverage.

Clause 12.4: Period of Risk Coverage

The post-harvest risk coverage period shall be valid for a maximum period of 14 days from harvesting of the insured crop. Any loss occurring after 14 days from harvesting shall not be compensable under PMFBY.

Clause 12.6: Mandatory Intimation and Survey

The affected farmer must notify the insurance company, local agricultural office, or PACS within 72 hours of damage. An appointed surveyor must conduct the field loss assessment within 48 hours of intimation, and 100% of approved claim compensation shall be disbursed directly to the farmer's DBT bank account within 15 days of survey completion.
